

NAME

dh_autotools-dev_restoreconfig - restore config.sub and config.guess

SYNOPSIS

dh_autotools-dev_restoreconfig [*debhelper options*]

DESCRIPTION

dh_autotools-dev_restoreconfig restores the original **config.sub** and **config.guess** files that have been backed up by dh_autotools-dev_updateconfig under the names **config.sub.dh-orig** and **config.guess.dh-orig**.

EXAMPLES

dh_autotools-dev_restoreconfig is usually called indirectly in a rules file via the dh command.

```

%:
dh $@ --with autotools_dev

```

It can also be directly called in the clean rule.

```

clean:
dh_testdir
dh_testroot
[ ! -f Makefile ] || $(MAKE) clean
dh_autotools-dev_restoreconfig
dh_clean

```

SEE ALSO

debhelper(7), *dh(1)*.

This program is meant to be used together with debhelper.
