

NAME

dircolors - color setup for ls

SYNOPSIS

dircolors [*OPTION*]... [*FILE*]

DESCRIPTION

Output commands to set the LS_COLORS environment variable.

Determine format of output:

-b, --sh, --bourne-shell

output Bourne shell code to set LS_COLORS

-c, --csh, --c-shell

output C shell code to set LS_COLORS

-p, --print-database

output defaults

--help display this help and exit

--version

output version information and exit

If FILE is specified, read it to determine which colors to use for which file types and extensions. Otherwise, a precompiled database is used. For details on the format of these files, run 'dircolors --print-database'.
