

**NAME**

dpkg-distaddfile - add entries to debian/files

**SYNOPSIS**

**dpkg-distaddfile** [*option...*] *filename section priority*

**DESCRIPTION**

**dpkg-distaddfile** adds an entry for a named file to **debian/files**.

It takes three non-option arguments, the filename and the section and priority for the **.changes** file.

The filename should be specified relative to the directory where **dpkg-genchanges** will expect to find the files, usually **..**, rather than being a pathname relative to the current directory when **dpkg-distaddfile** is run.

**OPTIONS**

**-f***files-list-file*

Read or write the list of files to be uploaded here, rather than using **debian/files**.

**-?**, **--help**

Show the usage message and exit.

**--version**

Show the version and exit.

**FILES**

**debian/files**

The list of generated files which are part of the upload being prepared. **dpkg-distaddfile** can be used to add additional files.
