

NAME

`gencat` - Generate message catalog

SYNOPSIS

`gencat` [OPTION...] -o OUTPUT-FILE [INPUT-FILE]...

DESCRIPTION

The **gencat** program is specified in the X/Open standard and the GNU implementation follows this specification and so processes all correctly formed input files. Additionally some extension are implemented which help to work in a more reasonable way with the **catgets(3)** functions.

-H, --header *NAME*

Create C header file *NAME* containing symbol definitions

--new Do not use existing catalog, force new output file

-o, --output *NAME*

Write output to file *NAME*

AUTHOR

gencat was written by Ulrich Drepper as part of the GNU C Library.

This man page was written by Jeff Bailey <jbailey@debian.org>.
