

NAME

lxsession-default - Launching default applications set by LXSession

SYNOPSIS

lxsession-default [COMMAND] [OPTIONS]

DESCRIPTION

lxsession-default is a wrapper around LXSession D-Bus interface, which launch default applications set by LXsession.

COMMAND is the application you want to launch, and the ones available are define in desktop.conf.examples.

OPTIONS are available if the COMMAND accept it.

Example : To launch file_manager/command set in desktop.conf, use : lxsession-default file_manager
