

NAME

lxsession-default-terminal - Launching default terminal set by LXSession

SYNOPSIS

lxsession-default-terminal

DESCRIPTION

lxsession-default-terminal is a wrapper around LXSession D-Bus interface, which launch default terminal set by LXsession. It's equivalent to lxsession-default terminal, but it can be used if an application can't use lxsession-default.

Applications launched will be the one define for terminal_manager/command set in desktop.conf.
