NAME

CPAN::Nox - Wrapper around CPAN.pm without using any XS module

SYNOPSIS

Interactive mode:

```
 perl -MCPAN::Nox -e shell;
```

DESCRIPTION

This package has the same functionality as CPAN.pm, but tries to prevent the usage of compiled extensions during its own execution. Its primary purpose is a rescue in case you upgraded perl and broke binary compatibility somehow.

LICENSE

This program is free software; you can redistribute it and/or modify it under the same terms as Perl itself.
