

NAME

JSON::PP::Boolean - dummy module providing JSON::PP::Boolean

SYNOPSIS

```
# do not "use" yourself
```

DESCRIPTION

This module exists only to provide overload resolution for Storable and similar modules. See [JSON::PP](#) for more info about this class.

AUTHOR

This idea is from JSON::XS::Boolean written by Marc Lehmann <[schmorp\[at\]schmorp.de](mailto:schmorp[at]schmorp.de)>
