

NAME

DBD::Gofer::Policy::rush - The 'rush' policy for DBD::Gofer

SYNOPSIS

```
$dbh = DBI->connect("dbi:Gofer:transport=...;policy=rush", ...)
```

DESCRIPTION

The `rush` policy tries to make as few round-trips as possible. It's the opposite end of the policy spectrum to the `pedantic` policy.

Temporary docs: See the source code for list of policies and their defaults.

In a future version the policies and their defaults will be defined in the pod and parsed out at load-time.
