

NAME

DBI::Gofer::Serializer::DataDumper - Gofer serialization using DataDumper

SYNOPSIS

```
$serializer = DBI::Gofer::Serializer::DataDumper->new();  
  
$string = $serializer->serialize( $data );
```

DESCRIPTION

Uses DataDumper to serialize. Deserialization is not supported. The output of this class is only meant for human consumption.

See also DBI::Gofer::Serializer::Base.
