

**NAME**

dpkg.cfg - dpkg configuration file

**DESCRIPTION**

This file contains default options for dpkg. Each line contains a single option which is exactly the same as a normal command line option for dpkg except for the leading hyphens which are not used here. Quotes surrounding option values are stripped. Comments are allowed by starting a line with a hash sign (`#`).

**FILES**

*/etc/dpkg/dpkg.cfg.d/[0-9a-zA-Z\_]\**  
*/etc/dpkg/dpkg.cfg*  
*~/.dpkg.cfg*

**AUTHOR**

See */usr/share/doc/dpkg/THANKS* for the list of people who have contributed to **dpkg**.
