

**NAME**

systemd-system-update-generator - Generator for redirecting boot to offline update mode

**SYNOPSIS**

/lib/systemd/system-generators/systemd-system-update-generator

**DESCRIPTION**

systemd-system-update-generator is a generator that automatically redirects the boot process to system-update.target, if /system-update exists. This is required to implement the logic explained in the [systemd.offline-updates\(7\)](#).

systemd-system-update-generator implements [systemd.generator\(7\)](#).
